# WHAT YOU CAN EXPECT FROM US

It is our mission, our purpose, our calling, to support and nurture you in a warm, loving and professional atmosphere and in a thorough manner. Our commitment comes from James 1:27 which states, “Pure and unspoiled religion in the eyes of God our Father is this; coming to the aid of the orphans and widows when they need it.....”

Every family we serve and each life lived is, in some way, special and unique. It is our desire to help you plan a funeral or memorial service which is meaningful to you, one which satisfies your emotional and aesthetic needs; one which genuinely represents the life and values of the deceased. This may involve a “traditional” type service or creative ideas, some of which are listed in our “Additional Service Selections”. For example, it may include displaying some special objects during the visitation, such as hobbies or pictures of the deceased and the family or it may include gathering for a meal following the funeral in the “Leavitt Family Center”. Take time to choose what services and tributes would best fit your needs.

It is important that you make decisions that are meaningful to you. It is also important that the funeral costs are acceptable to you. We feel a strong commitment to meet your financial needs and have developed several price options and packages to achieve this.

Our commitment to you is summarized in your “*Funeral Planning Guide*” given to you by your funeral director. We want to know if we do not meet the standards or principles of excellence in our service. We want our service to be the highest level of excellence to you, our family.

## Green Burial Services

The Leavitt Family was the first funeral provider in West Virginia and Southeastern Ohio to have earned accreditation from the Green Burial Council to provide options for natural burial.

The Green Burial Council is a not-for-profit organization that encourages the use of burial as a means of facilitating the restoration, acquisition and stewardship of natural areas throughout the United States.

A natural burial, sometimes called a green burial, does not contemplate the use of formaldehyde-based embalming, the use of a metal casket or the placement of concrete burial vault, unless cemetery requirements state otherwise.

The practices of natural burial do allow families to choose from a wide variety of services and products such as cotton or wool clothing, bio-degradable caskets and often is considered more “environmentally friendly” than cremation, due to the use of gas and emissions into the air caused by the cremation process. Currently, Leavitt continues the standards of care for Green Burial in performing Green Burials. Ask for more details.
